- ④ If there are more journals with the same title you can find the correct one via the counting – in this case it would be:

Suppl (3<sup>rd</sup> result): Vol. 38 was published in 2004 → When continuing counting (assuming per year 1 vol. is published) Vol. 303 could not have been published in 2003

IJMM (1<sup>st</sup> result): Vol. 290 was published in 2000 → Vol. 303 in 2013 = matches with the notice (s. a.)

- ⑤ By clicking 1) the linked title and 2) the publisher's / "Verlag"-URL you get to the page of the publisher
- ⑥ Search in the category "Author" for "Hellmark" and you get to the desired article
