Fair access:
a) Researchers from institutions without subscription to this journal

& b) Researchers in developing countries can see your work

More exposure for your work

Practitioners can apply your findings

©Publisher

Copyright not transfered to publisher

Cost-efficient

Higher citation rates

Faster access

Remix & Traceability

Compliant with grant rules

The public can access your findings

Your research can Influence policy

a) Researchers from institutions without subscription to this journal

More exposure for your work

Researcher's visibility: Higher awareness

Institutional research output: Via indexing (Scopus/Google/OpenAire/…)

& b) Researchers in developing countries can see your work

Practitioners can apply your findings

©Publisher

Copyright not transferred to publisher in case of Gold OA , see image "OA routes" at https://helmholtz-hzi.bibliotheca-open.de/Journals/OpenAccess) (without publishing in OA: Compliance with the often strict publisher's exploitation rights necessary, see Sherpa/RoMEO http://www.sherpa.ac.uk/romeo/index.php)

Cost-efficient
a) Breaking through the ongoing cost explosion of journal subscriptions (e.g. institutional OA Membership)
b) No double burden of institutional budget (via paying an extra fee for setting an article "open" after publication, so-called Hybrid OA)
c) Fee-based article ordering is not necessary
d) Long-term cost reduction (via elimination of Printing costs & subscription management)
e) Taxpayers get value for money

Higher citation rates via easy access

Remix & Traceability: modifying easier editing verifiable → at best: each research item has DOI with versioning

Faster access
Research results are accessible earlier

Your research can Influence policy due to faster access & other OA benefits

Compliant with grant rules /Funders' demand & HGF Assembly of Members' demand:

Free access to scientific results ⟶ The public can access your findings
